Applications:

Thermostatic mixer taps offer a modern and stylish solution for any bathroom. Our T8089 model is perfect for those who are looking for a contemporary design and functionality. With a pressure range from 0.5-3.0 bar, this product is suitable for all types of bathrooms and comes in a chrome or black finish. The surface is polished to ensure that it is resistant to corrosion and wear, ensuring long-lasting use. The thermostatic mixer taps are not only stylish but also provide excellent performance. With the built-in temperature control, you can ensure that the water temperature remains constant, making it easier and safer for everyone to use. This product also comes with a built-in diverter that allows you to switch between the shower and the sink with a simple touch, making it perfect for both bathroom and kitchen use.

Our T8089 thermostatic mixer taps are the perfect choice for anyone looking for a stylish yet practical solution for their bathroom. With its easy installation and user-friendly design, it has become one of the most popular bathroom mixer taps on the market. Whether you're looking for a modern or traditional design, this product is sure to provide an ideal solution for your bathroom.
